- HTML / CSS / JS (basic)

### Technologies & Tools

- Git
- Windows
- Linux

### LANGUAGES

- Greek (native)
- English (C2 – MSU Certificate of Proficiency)

### Projects

GitHub : <https://github.com/apostolak1s/CV>

My website : <https://apostolak1s.github.io>

#### GitHub highlights:

- **TCP-like communication protocol in C**  
Implemented socket programming with full connection lifecycle (3-way handshake), data transmission reliability, retransmission logic, and congestion control techniques (slow start, fast retransmit, etc.).
- **FPS Game in Unity (C#)**  
Designed and developed a first-person shooter game as part of a university project with 0 previous experience in a small 3 day window, demonstrating rapid learning and adaptability.
- **Personal Website**  
Created a portfolio website featuring personal background, achievements, educational journey, and a demonstration of web development abilities.
